U.S. PROFESSIONAL AMP COLLECTION

G6163 Executive™

Like the name implies, the Executive™ is all business! With its incredibly expansive tonal frequencies and articulate and "sparkly" nature, the Executive™ is the perfect amp for the Gretsch® enthusiast who longs for stratospheric clean tones. One 5AR4, two 6V6, three 12AX7 and two 12AT7 tubes push your voice through the single 15" Eminence® Legend speaker for a barrage of celestial sounds. Like the Variety™, the Executive also features Gretsch's® unmatched Reverb and Tremolo circuits. Tube, 20 Watts, 15" Speaker, Reverb, Tremolo..

230-1010-100 G6163 Executive™

\$3,650.00

U.S. PROFESSIONAL AMP COLLECTION

G6156 Playboy™

Once a Playboy™, always a Playboy! This baby smears so much "Class A" creamy compression onstage or in the studio that you best lock up your daughters! Two EL84 and three 12AX7 tubes create an onslaught of chiming tones; the custom 12" Eminence® Legend speaker and unmistakable Gretsch® Tremolo circuit do the rest. Simple and fancy free, just like the name implies. Tube, 15 Watts, 12" Speaker, Tremolo.

230-1000-100 G6156 Playboy™

\$2,950.00

ELECTROMATIC® AMPLIFIER

G5222 Electromatic® Amp

TONE-FULLY SIMPLE! 5 watts & 2 tubes & 2 inputs... too COOL!!! Tone with soul is how most players describe the Gretsch® Electromatic® G5222 Amp. Designed by guitarists, this low output, easy-to-record amp is ideally suited for small-room jam sessions and recording projects. Crank the amp's volume and manipulate the guitar's controls for a variety of sounds. Not only does it spank, sparkle and growl, the visual factor is undeniably Gretsch.

\$12,000.00

G6129BZ Billy Zoom TRIBUTE Silver Jet™

Nice Guy...Punk Legend! The image of Billy Zoom on stage with his wide legged stance, satisfied grin and vintage Gretsch® Silver Jet™ guitar is well documented in the annals of American punk rock lore. A co-founder of the band, "X" from Los Angeles, California in the late '70s during a time when pop culture was undergoing a radical change, what started as a small underground cult following quickly grew to international radio airplay and sold-out packed venues around the globe. The unmistakable playing style and tones generated from Billy's guitar rig has been a potent ingredient to the overall sound that has helped sustain the band's career for more than thirty years. In honor of his longevity in the world music community and contribution to the legacy of Gretsch® guitars, we are very proud to offer the G6129BZ Billy Zoom Tribute Silver Jet™ guitar. Built exclusively at the Gretsch Custom Shop in Corona, California by Master Builder Stephen Stern, every effort was taken to recreate Billy's famed sparkled guitar. It should be noted that with the help of a medical CAT scan device (Computerized Axial Tomography), like discovering the coveted Holy Grail, it was found that the particular vintage guitar Billy owned was almost 95% hollow. From the unique pearloid banjo buttons on the Grover® tuners, Bigsby® B12 tailpiece, Seymour Duncan® DynaSonic™ pickups and Synchro-Sonic™ bridge, the distressed finish and hardware will inspire you to adopt a wide legged stance and satisfied grin of your own.

240-0408-817 G6129BZ Billy Zoom Tribute Silver Jet™, Rosewood Fretboard, Silver Sparkle

G6120-CGP Chet Atkins Stereo Guitar- Limited Production

Only ONE was ever made...UNTIL NOW!!! The original prototype Gretsch® STEREO guitar was created for Chet Atkins in 1956 with the help of musician and electronics repairman from Cairo, Illinois, Ray Butts. Ray's ingenious split-dual-coil pickup was assembled on a prototype G6120 guitar with closed simulated "F-Hole" inlays on the body. Only ONE was ever produced. Chet used this special, one-of-a-kind instrument on his ground breaking 1957 album, "Finger-Style Guitar". Wired with two output jacks, the signal from the bass strings would run through the echo input on his amplifier while the treble strings were fed dry through the normal channel. Though at the time the concept of a "stereo" guitar was a brilliant idea, it was deemed impractical as the cost to produce it put it out of reach of the general buying public. The project was shelved. With the help of legendary sideman & bandleader to Atkins, Paul Yandell, and renowned pickup designer/luthier, Tom "TV" Jones, Gretsch® is proud to introduce the G6120-CGP Chet Atkins STEREO guitar. With a flip of a switch the instrument operates in Mono or Stereo. In STEREO mode, the signal of the low E, A & D strings are isolated to a designated output jack while the high E, B & G strings are routed to their own output jack. Whether you use two amplifiers spread apart or record a performance with a wide left/right pan, the results are mind blowing! In MONO mode, the signal to all six strings route to one output.

ANNIVERSARY™ MODELS

G6118T-LTV 125th Anniversary™

In celebration of the 125th Anniversary of the Gretsch® Company and maintaining a legacy that has lasted 5 decades, the tradition of the ANNIVERSARY™ model continues. To commemorate this historic event, a very special instrument was created that will sure to be an instant classic. Merging time proven Gretsch elements from the past with NEW concepts seemed to be a fitting way to pay tribute. Chosen for its rarity, the Gretsch color Jaguar Tan was selected for the body top with metallic gold for its sides & back. For ideal resonates & tone, 3-ply laminated maple construction for the entire body was maintained. As Fred Gretsch III says, "That's the way my father made 'em in Brooklyn, New York." This is also why the Brooklyn era Gretsch guitars are the most sought after in the world. Also featured is the new ML bracing, which produces an open, rich tone.

240-1025-800 G6118T-LTV 125th Anniversary™, Ebony Fretboard, Top: Jaguar Tan, Back & Sides: Metallic Gold

ARTIST SIGNATURE MODELS

G6199 Billy-Bo Jupiter Thunderbird

Some time ago, Bo gave me the guitar as a gift. It was during the recent ZZ Top recordings, when the engineering crew and I snaked through the guitar vault searching for that certain-something guitar, and there it was! We didn't risk subjecting such a rare instrument to the rigors of the road. So this new reproduction model was recreated with some BFG mojo thrown in for good measure. It's now the main stage guitar with a groove. - Billy F Gibbons. Rock luminaries Billy F Gibbons and Bo Diddley have joined forces to bring you a 21st-century version of the elusive Gretsch® Jupiter Thunderbird now dubbed the Billy-Bo which was designed in '59 by the talented Bo Diddley himself!

241-0508-815 G6199 Billy-Bo Jupiter Thunderbird, Rosewood Fretboard, Firebird Red, "G" Cutout Tailpiece

\$3,825.00

G6199B Billy-Bo Jupiter Thunderbird Bass

The science project gone wrong continues with Billy Gibbons and Bo Diddley starring as the mad scientists - throwing their concoction together to create the ultimate bass. The "Billy-Bo" Jupiter Thunderbird Bass is as down and dirty as you want to be or as mellow as a Sunday morning. Specs include TV Jones® Thunder'Tron™ pickups, Space Control™ bridge assembly, Sperzel® machine heads, and a vibe that is so over the top it will have space aliens dancing the alligator.

PROFESSIONAL COLLECTION: LEFT HANDED MODELS

G6118T-LTV 125th Anniversary™, Left-Handed

In celebration of the 125th Anniversary of the Gretsch® Company and maintaining a legacy that has lasted 5 decades, the tradition of the ANNIVERSARY™ model continues. To commemorate this historic event, a very special instrument was created that will sure to be an instant classic. Merging time proven Gretsch elements from the past with NEW concepts seemed to be a fitting way to pay tribute. Chosen for its rarity, the Gretsch color Jaguar Tan was selected for the body top with metallic gold for its sides & back. For ideal resonates & tone, 3-play laminated maple construction for the entire body was maintained. As Fred Gretsch III says, "That's the way my father made 'em in Brooklyn, New York." This is also why the Brooklyn era Gretsch guitars are the most sought after in the world. Also featured is the new ML bracing, which produces an open, rich tone.

240-1225-800 G6118TLH-125 Anniversary™, Ebony Fretboard, Left-Handed, Top: Jaguar Tan, Back & Sides: Metallic Gold, Bigsby® Tailpiece **\$4,025.00**

G5191BK Tim Armstrong "Signature" Electromatic® Hollow Body- NEW!

Punk rock war-lord, Tim Armstrong makes no apologies that the music radiating from his soul at times can be loud & ferocious. His guitar tone alone has become as infamous as his world renown persona. Gretsch® is proud to introduce the G5191BK Tim Armstrong "Signature" Electromatic® Hollow Body guitar. A big sound resonates from the parallel tone bars and sound post mounted under the top of the 17" wide body, which has a harp tailpiece and a pair of "Black Top" Filter'Tron™ pickups for maximum sustain and tuning stability. Grover® tuners, big block fretboard inlays and gold-plated hardware set against the ominous FLAT BLACK urethane finish are a recipe to incite your senses to euphoria. Also available in LEFT-HAND.

ARTIST SIGNATURE MODELS

G5135PS Patrick Vaughn Stump Signature Series "STUMP-O-MATIC"

Electromatic® CVT

THE FEELING WILL BE AUTOMATIC WITH ALL THREE PICKUPS BLAZING ON THE STUMP-O-MATIC GUITAR! From the heart & soul of guitarist/frontman, Patrick Vaughn Stump of the multi-platinum selling & award winning band, FALL OUT BOY comes the G5135-PS Patrick Vaughn Stump Signature Series Gretsch® STUMP-O-MATIC Electromatic® CVT Guitar. The vision Patrick had in mind was a versatile solid body guitar capable of discharging not only classic biting Gretsch® tones but also an array of THICK, FAT, COLORFUL bombastic sonic blasts at the flick of a switch. It took the genius mind of Tom "TV" Jones to develop the circuit design that brought Patrick's dream guitar to life. The singing rich sustain comes from the set-neck, string through body design and THREE MegaTron™ pickups. The special two position rotary switch allows you to keep things traditional or you may choose to dial in the middle pickup in multiple combination settings that includes having all three pickups on at the same time. And if that isn't enough, rapidly manipulating the STUMP-O-MATIC kill switch machine gun style while the guitar is engaged in full throttle screaming feedback may cause some to duck for cover. Embodied in Pewter with strategically placed black stripes on the body makes the STUMP-O-MATIC CVT guitar a must have in your arsenal.

251-5202-517 G5135PS Patrick Vaughn Stump Signature Series "Stump-O-Matic" Electromatic® CVT, Rosewood Fretboard, Pewter with Custom Black Stripes

G5135GL G.Love Signature Electromatic® CVT

The Philadelphia boss with the special sauce! G.Love has a unique way of delivering an urban style groove with his band, Special Sauce that combines funk, rap, blues & jazz. Spreading the love on world tours by an artist that inspires large masses of concert goers to sway in unison from the sound of his voice, tone of his guitar and the beat from a rock steady band is a sign of how powerful music can be. In the spirit of spreading the love, Gretsch® is honored to introduce the G5135 G.Love signature model CVT guitar. The special sauce contained are a pair of TV Jones® PowerTron™ pickups, deluxe mini precision tuners and a cool Phil-Green color scheme with competition stripe that would make ANYONE from Philadelphia proud!
